

Date : 25th May 2021

Hardik Savaliya

:: Day - 1 ::

--Work Summary--

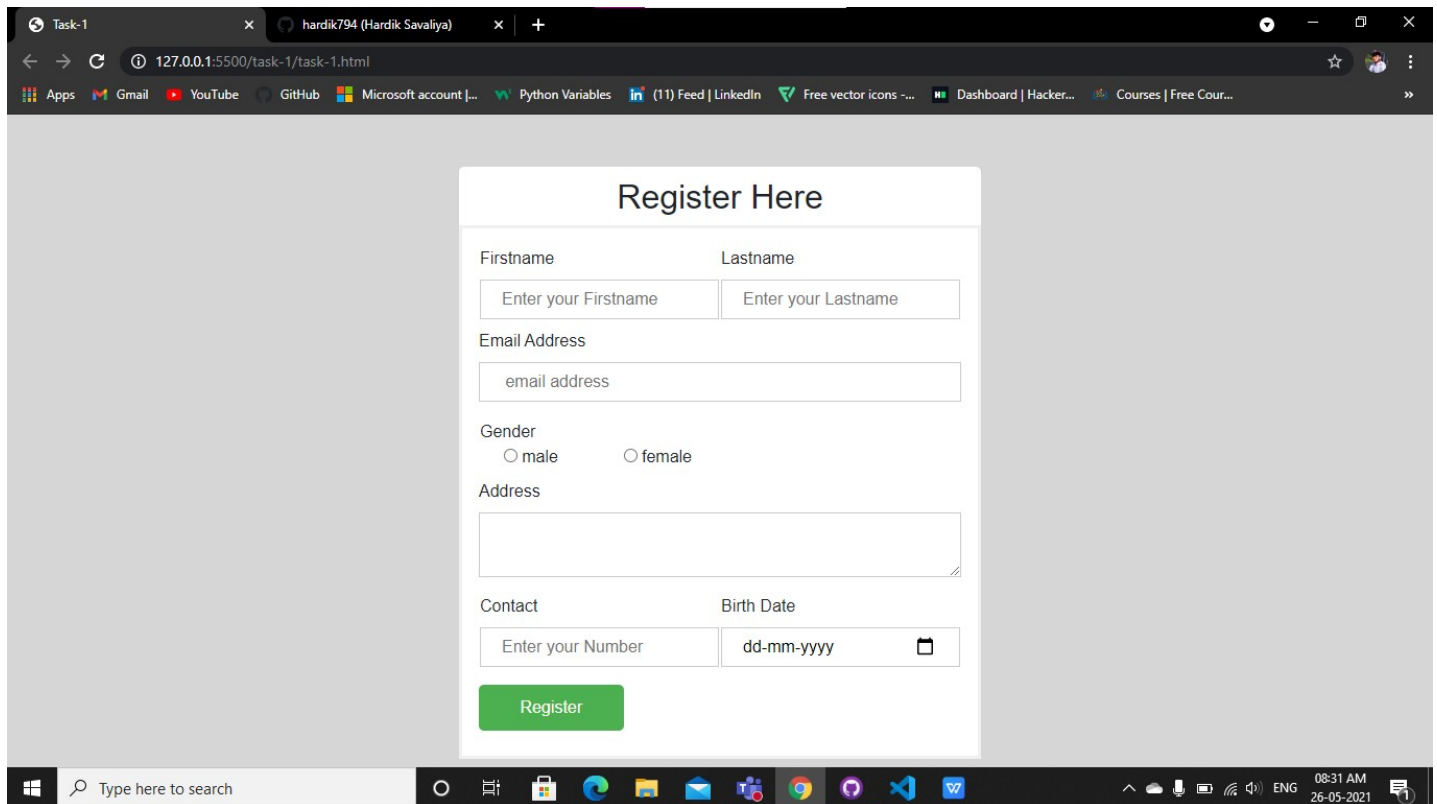

- Today it was the first day of our Internship.
- The mentor Akash Padhiyar (Founder of AkashTechnolabs) took the introductory session and gave us brief exorcism about his company and about the internship and the technology which we were going to used during our internship.
- The afterwards we started with our topic programming language python which will be of 1 week and followed by Django framework in the next week.
- Week 1 by : Devanshi Prajapati
- Week 2 by : Akash Padhiyar

❖ What we learnt ?

- Importance of Internship in and future Job opportunities.
- Introduction and basic knowledge of Python.
- Installation Of Python and Different IDEs.
- Compilation & Run the Program.
- How to manage GitHub Desktop Account and Repository.

This Internship is Task Based Internship. So at the end of this session we got one basic HTML Task.

● Task - 1 : To create Basic HTML Based a simple Registration Form.

The screenshot displays a web browser window with a registration form titled "Register Here". The form is centered on a light gray background. The browser's address bar shows the URL "127.0.0.1:5500/task-1/task-1.html". The taskbar at the bottom of the screen shows various application icons and the system clock indicating 08:31 AM on 26-05-2021.
