Date: 3rd June 2021 Hardik Savaliya

:: Day - 8 ::

--Work Summary--

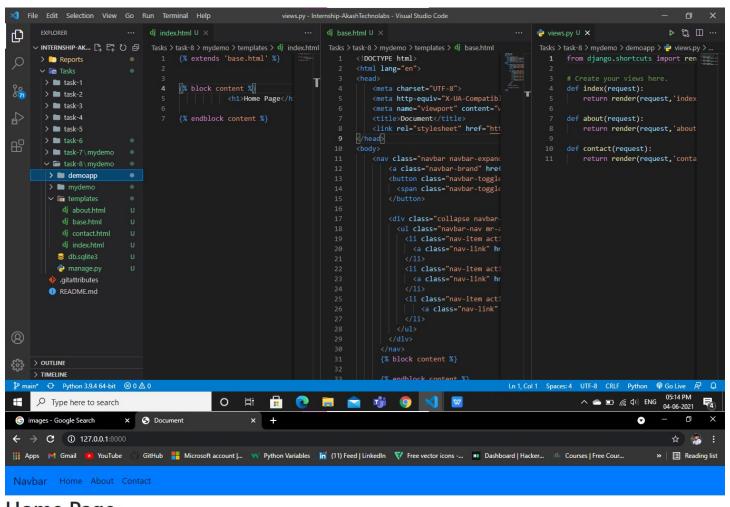

- Today it was the Eighth day of our Internship.
- Taken by :Akash Padhiyar

What we learnt?

- In today's session we learned how to navigate through multiple pages using various urls and its associated functions of views.py.
- We also learned how to setup path for templates and static file
- which are most useful features of Django we import images for static folder using different syntax of jinja2
- Than regular html syntax for importing CSS,JS, Images files into html page.
